# The Modern Realities

How many people live below the poverty line?  
After a lifetime of work, retirement is still impossible

**Did you know that 95% of people serve the interests of the remaining 5%?**

## How to earn more

**This 5% are corporations. They make billions. People get almost nothing.  
What are the options to earn more?**

Find a  
Second job

Invest

Cut all  
desires

Risky  
business

Illegal  
activity

Inheritance

Illegal  
activity

 **All these methods carry risks**

Even if you earn more — you will still be in a dependent consumer position. You depend on corporations: from jobs to the cost of products, technology, communications and the Internet. Corporations control people with the help of media and monopolization

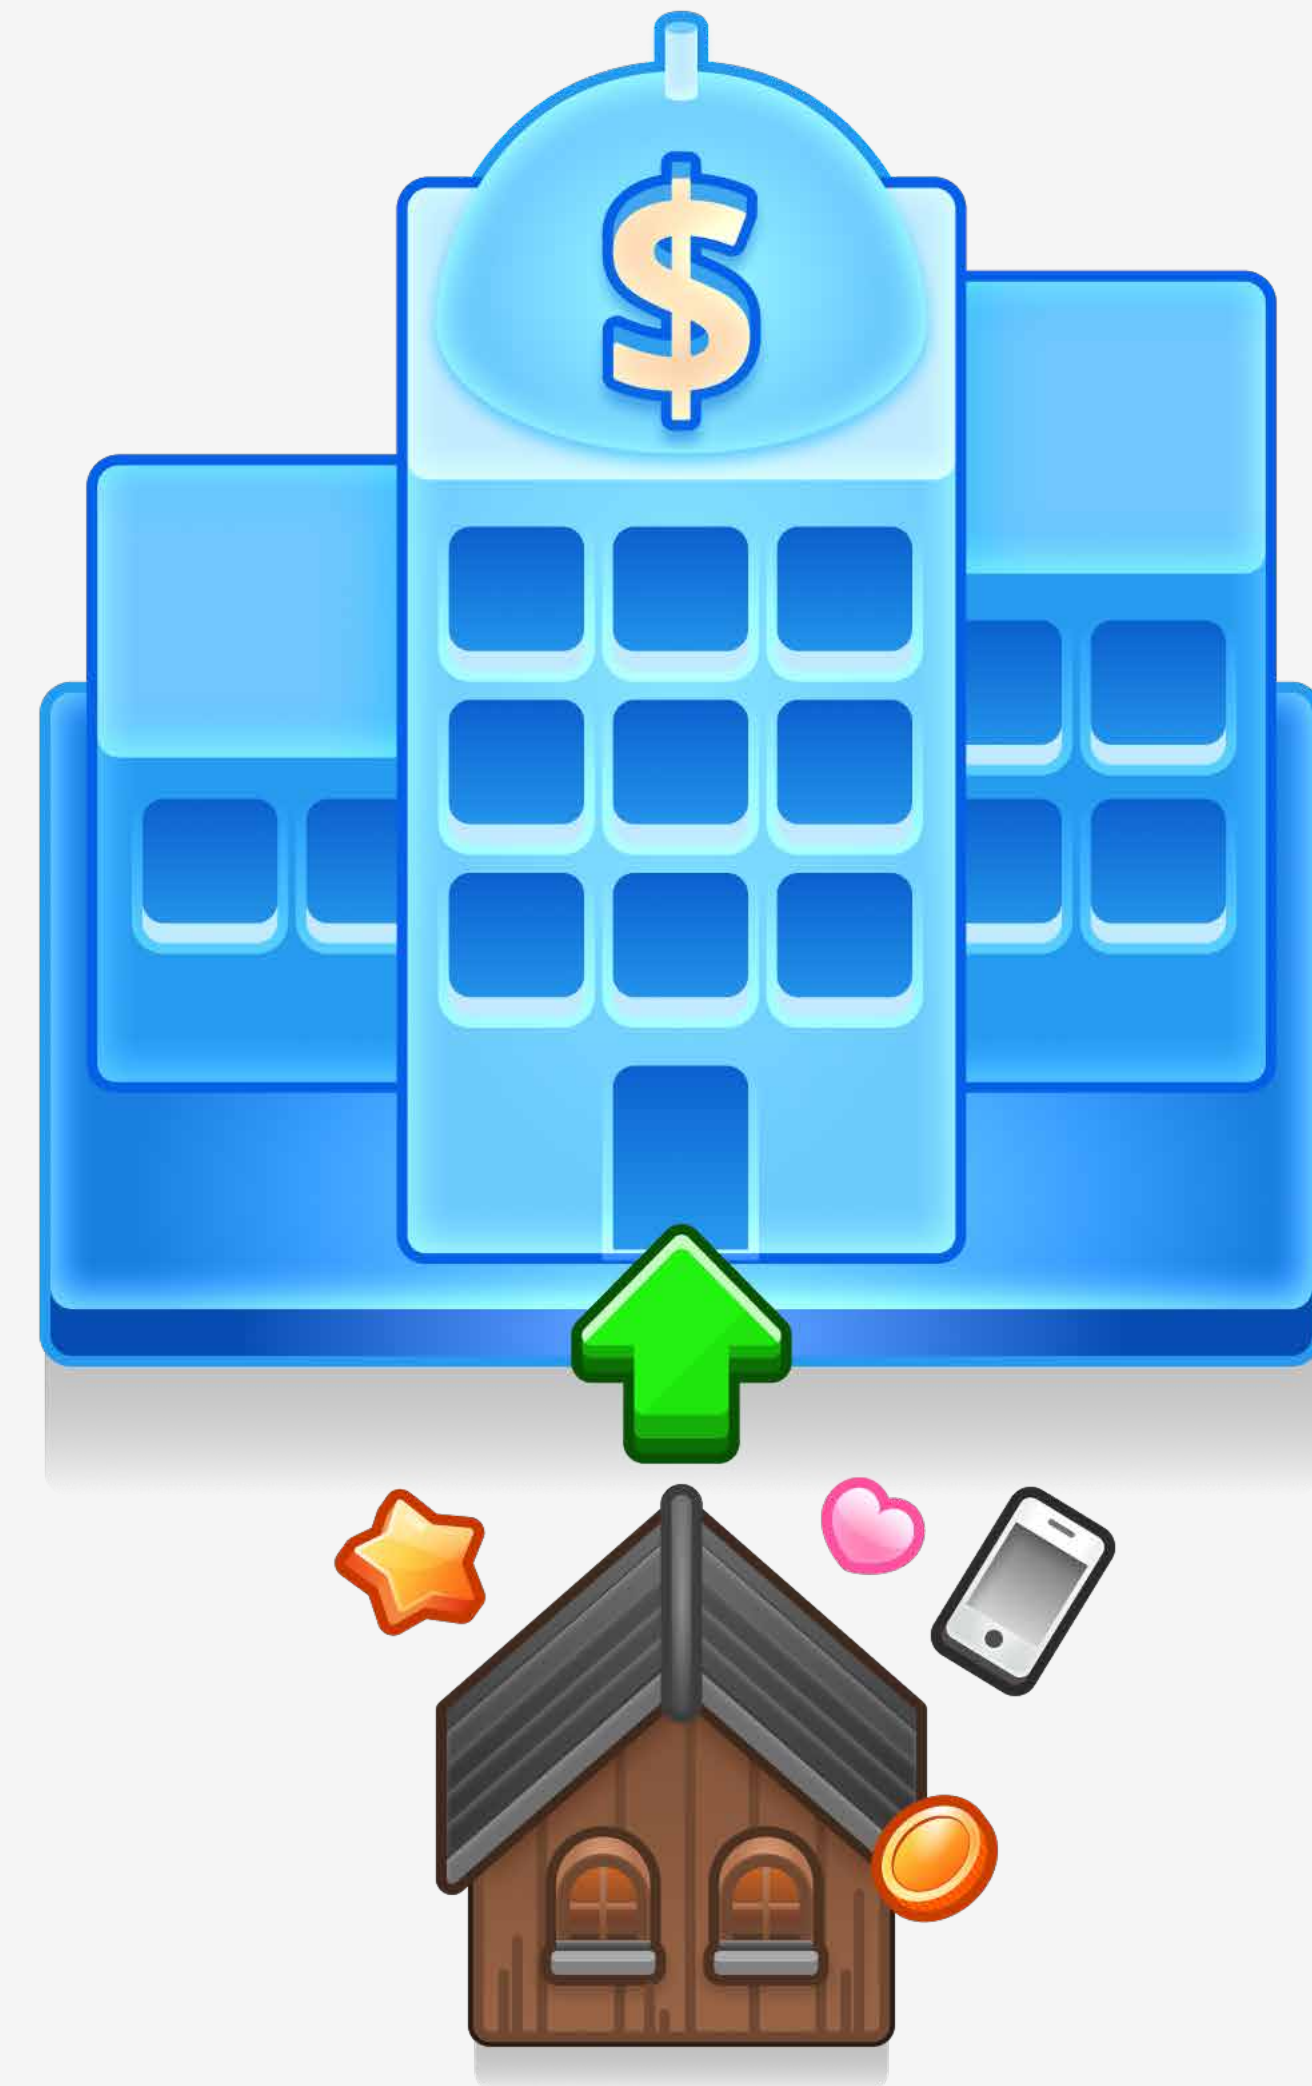

# Corporations

**In today's world, regular people pay corporations every day — through the food they eat, the apps they use, the ads they see**

**Billions flow into the pockets of tech giants like Google, Apple, Meta, and others, while ordinary users... just consume**

**They gain weight from mass-market products. They spend their time in apps. They click, scroll, and stream**

**But they don't get paid — the billionaires do.  
How to break free?**

# How to hack the system

## Mystique Fusion Was Created to Flip This System

We don't pay corporations to promote us

We pay you instead

We don't spend billions on traditional advertising

We've built a world, where you relax and earn at the same time

# How to hack the system

**We show ads and share the ad revenue with our community**

Not for some giant brand but for themselves

**This is more than just a game**

**This is a redistribution of digital wealth.  
And it starts with you**

## Endless Opportunities

Mystique Fusion has a powerful hybrid compensation plan, merging elements of linear and binary compensation plans to deliver fast growth, simplicity and efficiency

With regular updates and exciting new features the game is always immersive, keeping players relaxed and chilled

Earnings are in Mystic Gold, our in-game currency, which can be instantly and transparently converted to USDT. This ensures your game activity translates into real, stable income

## Business Statuses

**Your bonuses depend on your status and how many people you invite to the platform:**

### **Standard Status**

Invite friends and earn 10% of the volume they generate — from in-game purchases, watching ads or climbing the Leaderboard

### **Advanced Status**

Activate your account monthly to boost your income. Earn 15% from your direct referrals (first line) and 7% from their referrals (second line)

### **Business Status**

Unlock this level once two of your personally invited partners reach Advanced status. A basic verification is required. This is where the business starts

## [Business Ranks](#)

### **At the business rank, you can earn much more**

The entry rank Onyx — starts with a binary bonuses limit of 100K Mystic Gold per week or 400K Mystic Gold per month. But this is only the beginning! Your in-game bonuses, as well as referral and matching bonuses are not limited

**There are six business ranks in total:**

Onyx

Sapphire

Pearl

Ruby

Emerald

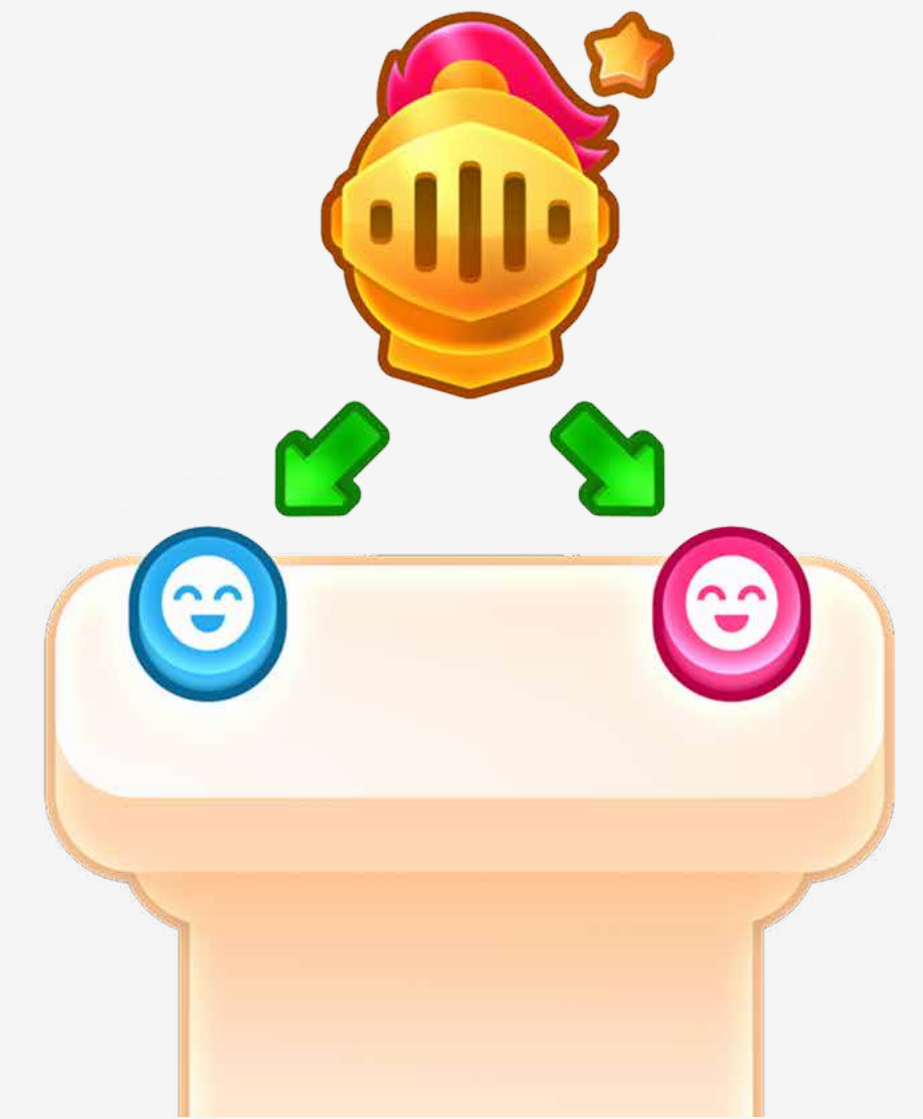

Diamond

# The Power of the Compensation Plan

Business status holders also gain access to our binary system — a structure built for acceleration and high-volume rewards. You grow two branches (spillover and personal) and get paid

## Why is our model the best?

**1:1 branches  
volume ratio**

For maximum payouts

**Binary Cycle is  
24 hours**

Earn every single day

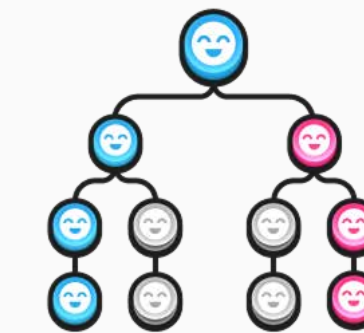

**No min. volume  
to complete  
the cycle**

Earn from your weak  
branch volume

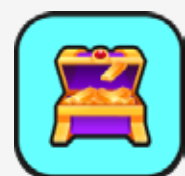

**Grow in bonus  
accrual**

Move up in ranks to  
increase your payouts

**No structure  
depth limit**

Earnings can come  
from any level

Volume accumulates over time — so you're rewarded fairly even if your structure grows at different speeds

# Matching bonuses

You will open an opportunity to earn matching bonuses — bonuses that accrual from your partners' binary bonuses. This is the best opportunity to earn from any depth of your structure. Matching bonuses can bring in huge income on high-ranking structures

## No limits on this bonuses

Earn as much as you grow

## Open at Sapphire

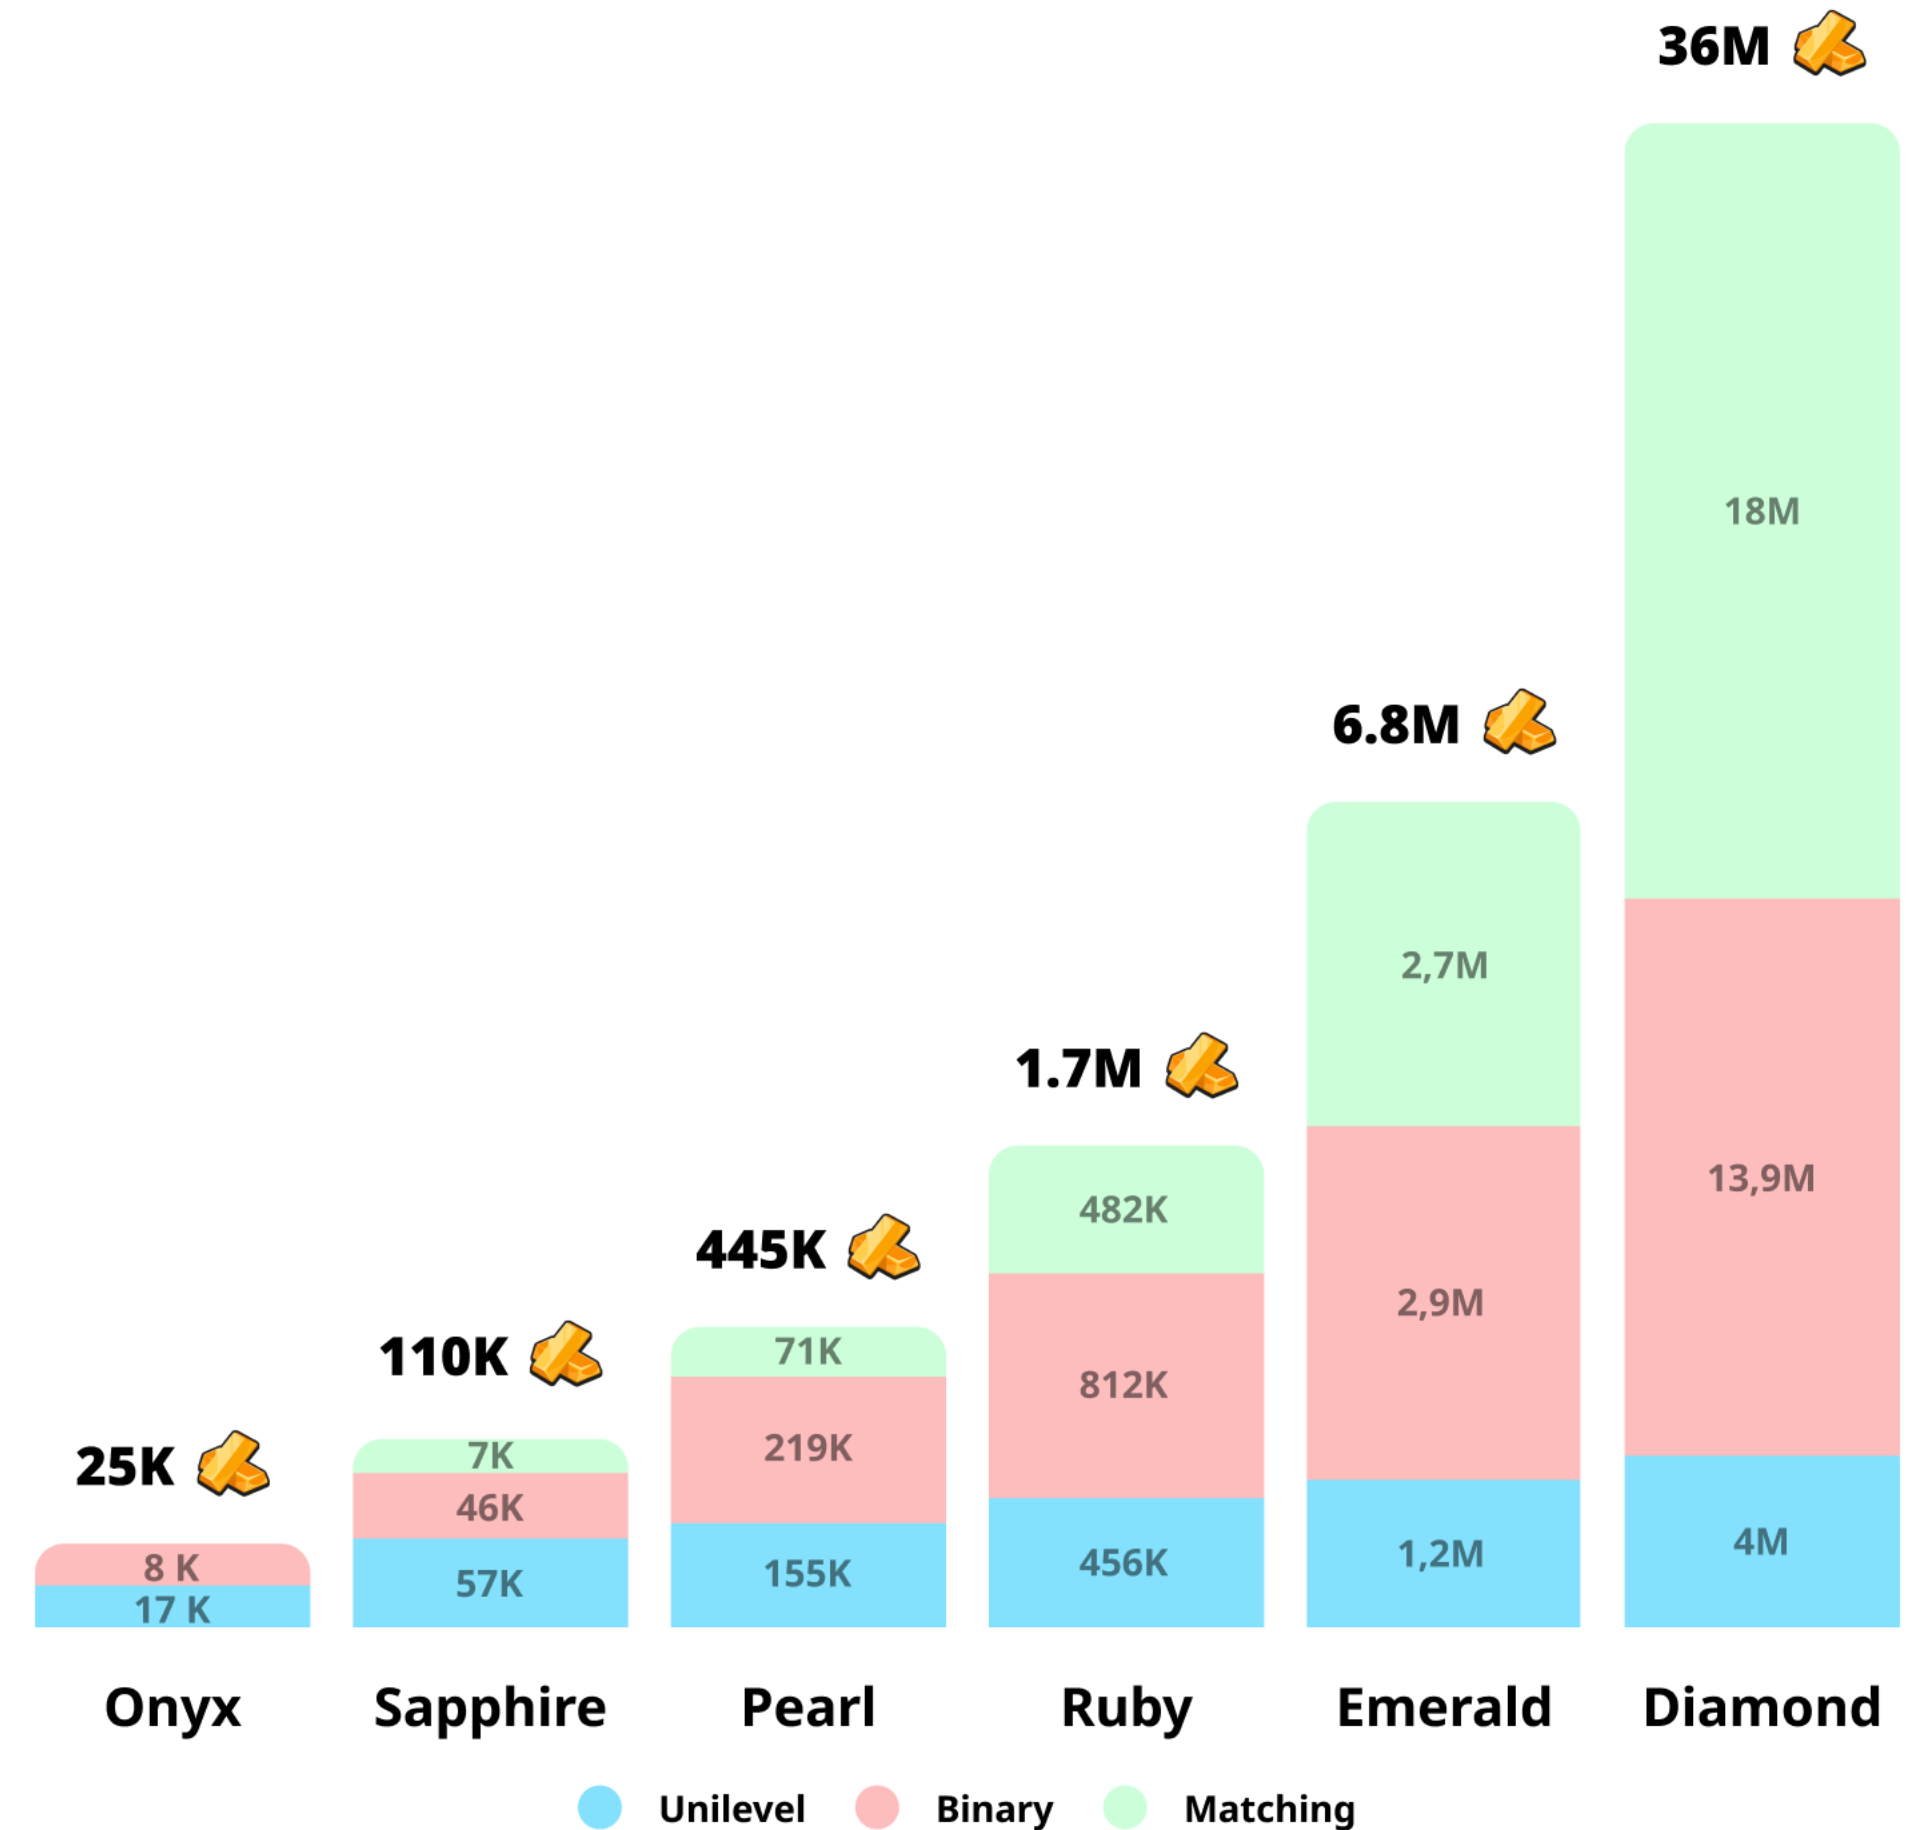

You will open all bonuses at the second business rank

## Grow in bonus accrual

Move up in ranks to earn more and unlock new depth levels

## Bonuses at different ranks

## The Mystique Fusion Partnership Program: Endless Opportunities

# How fast you can grow

The speed of your development depends on how hard you work. But unlike any typical job, with us you can reach a very large income after a year of stable work

This chart applies to partners who have never done Network Marketing. Professionals can reach Sapphire in less than a week.

## Business Packs

Heroes become 10–30% stronger, making gameplay easier and more rewarding for your referrals

Packs work as a subscription. Renew them monthly

Purchasing a business pack is mandatory to achieve new ranks

Higher-tier packs unlock a personalized referral link and a custom promo page

«There is no business without investment»
